Goals: Andrew Hyatt, the Feature Presented by New Country Spirit

Presented by New Country Spirit

Andrew Hyatt is goal oriented, he told us so. Whether those goals are releasing an EP and full length album, getting his songs on the radio, or even just getting good enough at music to open for a local band, he's willing to work to achieve them.

Hyatt told us that the last one mentioned there is the one that kind of got him started. He knew he wanted to give music a try, and so he set a goal of being good enough on his guitar and on the microphone to open for Parry Sound band, Red Umbrella. And now, as 2017 comes to a close, Andrew Hyatt has well surpassed that original goal.
